1. This Supplemental Allowance is being supplied to correct the omission of claim 34 from the previous allowance.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. Claims 1, 2, 5-12, 15, 17-31, 33, and 34 (renumbered claims 1-28) are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 2, 6, and 33, the primary reason for allowance is that the prior art fails to teach or reasonably suggest a separating device configured to separate one line of light forming an optical image of an object, wherein the separating device includes a slit that separates the one line of the optical image of the object and an adjusting device that adjusts a position where the optical image of the object is incident upon the slit. In other words, a primary difference between the prior art and the applicant's invention is that the prior art focuses one pixel while the applicant's invention extracts one horizontal line of the image using the adjusting means and slit.

As for claim 21, the primary reason for allowance is that the prior art fails to teach or reasonably suggest that the synthesizing means includes a synthesizing prism for synthesizing the spectrum portions extracted by the extracting means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
